SongStar

SongStar invites you to design to submit an original outfit design to be worn by one of our video game characters. Fear not they're not fussy, they'll wear anything!

Characters will be busting moves on the dance floor so they need to be looking their best.
Bring your individual style alive; club wear, street wear, onesie pajamas, anything goes. Punk it up, 80s shoulder pad it, or add in your favorite loose fit. Go crazy like it's Fashion week, we won't make you wear it.

The two winning designs will be created and added to the game, where players can choose them as their avatars.

Each winner will be awarded a **£100** cash prize and their winning design will be added to the game where players can choose them for their avatars.

SongStar is an in development music rhythm action game, providing a fun and inclusive environment where anyone can express themselves through music and dance.
A simple, playful, musical experience without restrictions.
